初心

从 1993 年开始，我们就一直在建筑陶瓷领域深耕细作，专注于研发、设计和生产瓷砖、陶砖产品。三十年的技艺积累和沉淀，凝聚了老一辈陶瓷人的智慧结晶，也使得雅山能够站在更高的起点，投入到艺术陶瓷砖的创作中，不断地实现产品进化。

从圆窑，多孔窑，隧道窑，辊道窑等一代代生产设备的更新，从单一的素面砖再到如今个性化的艺术砖设计与生产，从简单的模仿到对产品规格的极限延伸，再到形状纹路、颜色釉料上的独立创作，我们家族两辈陶瓷人一直兢兢业业，一路砥砺前行。

我们觉得建筑陶瓷产品的设计和生产本身就是一种艺术创作。基于建筑装饰潮流、设计师喜好和市场客户的艺术需求的深刻认知，我们通过专业的制陶技艺，创造出与众不同的陶瓷砖产品。在这一过程中，我们一直积极地开放式地探索陶瓷材料和其他材料的结合，挖掘产品的边界外延，催生出新的面状纹路，研发各类釉彩在陶瓷砖上的应用，不断地将新的艺术灵感转化为产品。这是我们在过去三十年里持续在做的事——努力独立创作不一样的艺术陶瓷产品。

Aspiration

Since 1993, we have been dedicated wholeheartedly in the field of architectural ceramics, with a focus on the research and development, design and production of ceramic tiles and clay bricks. With 3 decades of experience and expertise, Artsum pools together the wisdom of the previous generation of ceramists, and remain devoted to the creation and refinement of artistic ceramic tiles.

From the round kiln, tunnel kiln, roller kiln and generations of production equipment innovation, from a single plain-surface tiles to the personalized art tile design and production, from simple imitation to the ultimate extension of product specifications, and then to the independent creation of shapes, patterns, colors, glaze, two generations of ceramists have been remaining dedicated to our aspiration, forging ahead with great commitment.

We believe that the design and production of architectural ceramic products is an artistic creation in itself. Based on the insights of architectural decoration trends, designers' preferences and customers' artistic needs, we create distinctive ceramic products with our expertise and professionalism. We have been proactively and openly exploring the possibility of combining ceramic materials with other materials, extending the boundary of our products, creating new patterns and textures, developing the application of various glazes on ceramic tiles, and constantly turning new artistic inspirations into real-life products. This is what we have been doing continuously for the past 3 decades — striving to create different artistic ceramic products independently.

雅山陶砖 Artsum Clay Brick

陶土砖是由粘土、页岩等天然材料制成，是历史悠久的建筑产品，直至今日，仍在生产工艺和运用领域上不断地被进化和延伸。雅山秉承着传统的陶砖生产技艺，不断地研发与创新，因应当今建筑潮流设计和生产高品质的建筑陶砖产品。我们陶砖全系列产品均采用优质的天然粘土，经挤压成型和高温烧制而成，是环保和安全的墙面装饰材料。雅山陶砖产品持久耐用，具有良好抗冻和抗风化性能，适合于公共建筑、商业和住宅等不同类型的建筑在室内外墙面上的使用。

颜色

雅山陶砖系列有着丰富的色谱，包括白、黄、红、棕、灰、黑等从浅至深的色调，可实现单一色调或者窑变效果。通过我们的原料配方和窑炉烧制技术，雅山陶砖可以满足建筑师们在色彩上的敏感细致的需求，且颜色持久不褪色。除自然陶土颜色外，雅山还提供纯色的釉面陶砖，可根据需求定制颜色。

尺寸和形状

雅山陶砖尺寸因产品系列的不同而有所差异，每个产品系列都有其常规产品（标准）的尺寸以及可生产的尺寸范围。纵观世界范围内，各个国家常规使用的陶砖尺寸各不相同，雅山可以按照客户定制的尺寸生产。

表面纹理

雅山陶砖的纹理主要包括机械和手工两种工艺，常规机械制纹理有平面、线面、拉毛面、磨砂面等，而手工制纹理则可呈现更多随机、自然的表面效果。雅山的釉面陶砖提供亮光釉面和哑光釉面的选择，当陶瓷釉和陶砖胚体原有的纹理相互叠加运用，可以产生更多特别的表面效果。

Clay brick is made from natural materials such as clay and shale. It is a long-established building product that continues to evolve in terms of its production processes and applications to this day. Artsum adheres to the traditional art of clay brick production, and continues to develop, design, and produce innovative, high quality architectural clay brick products in response to contemporary architectural trends. Our full range of architectural cladding bricks are made from high quality natural clay. Extruded and fired at high temperatures, they are truly environmentally friendly and safe wall decoration materials. Artsum brick products are durable, with good frost and weather resistance, suitable for application on the indoor and outdoor wall surfaces for various types of buildings such as public buildings, commercial and residential buildings.

Colors

Artsum clay brick collection is available in a wide range of colors, from light to dark shades of white, yellow, red, brown, gray, and black, it can fulfill the effect of single shades or flashing. Through our raw material formula and kiln firing technology, Artsum bricks can satisfy the sensitive and detailed needs of architects for color consistency. Artsum also offers glazed bricks in solid colors, with custom colors available upon request.

Sizes and Shapes

The size of Artsum clay brick varies depending on the product line. Each product line features its regular (standard) product size as well as the range of sizes that can be produced. Throughout the world, the sizes of brick vary from country to country, and Artsum can produce them in custom sizes as required.

Texture and Finish

The textures of Artsum clay bricks are mainly achieved through mechanical or handmade processes. The conventional mechanical textures include natural flat, velour, sandblasted and combed surfaces, while the handmade textures can present more random and natural surface effects. Artsum's glazed bricks are available in glossy glaze and matte glaze, which can produce more special surface effects when the ceramic glaze and the original texture of the brick body are superimposed on each other.

手工砖 Handmade Antique Brick

雅山手工砖产品系列采用建筑陶土行业最原始的手工艺、创新的配方和现代生产技术，将设计师独一无二的创作灵感转化为产品。无论是还原过去建筑的痕迹，还是呈现前所未有的创意构想，每一块定制化的手工砖在细节上都将是独一无二的。

Artsum's original intention in developing its handmade antique brick product line was to maximize its integration into the designers' creations. By applying the most original handcrafted techniques of the architectural brick industry, innovative formulas, and modern production techniques, we aimed to turn their inspiration into products. Whether restoring traces of traditional architecture or presenting a creative vision never before seen, each piece of custom handmade antique brick boasts uniqueness in its details.

陶土砖 Face Brick

在当代的建筑发展潮流中，陶土砖的角色早已经从过去的承重结构演变成为精美的建筑表皮结构，建筑师们通过变换垒砌逻辑，在特定的建筑中表现陶砖特有的材质肌理，实现千变万化的建筑效果。雅山可以按照项目的砌筑要求，制作成各类尺寸、形状的实心砖或多孔砖。

As for the contemporary trend of architecture, the role of face brick has evolved from a load-bearing structure to an exquisite architectural surface structure. Architects are changing the logic of building to express the unique material texture of face brick in a specific building project to achieve a variety of architectural effects.

老砖 Reclaimed Brick

雅山的老砖来自于 20 世纪不同年份，通过手工或机械制造而成，主要包括红砖、青砖和白砖。因为原有的粘土原料、烧成工艺、原始用途、残留砂浆、历经年代、地域和气候的差异，使得其表面纹理、颜色会随机地呈现出各种或细微或明显的变化，其边缘和表面则有不规则的磨损，充满复古之美。

Artsum's reclaimed bricks come from different years of the 20th century and are made by hand or machine. They are mainly available in red, gray and white. Through the process of recycling, cleaning, sifting and cutting, Artsum's reclaimed bricks become eco-friendly, retro and fashionable wall decorations. Artsum can provide various working surfaces and sizes of processing according to customers' needs.
